**Subject:** transparency

Hi

I hope that you remember our brief discussion on our project on transparency in regulatory science. Attached are :

1. A manual intended for students participating in regulatory science program at Georgetown University
2. A brief description of the study that is in progress.

It would be very nice if we could meet to discuss areas of mutual interest. Would it be possible to meet in the office of Dr. Calderone at Georgetown University. I am aware that you are extremely busy. Precisely for that reason meeting outside your office may be more productiv.

Alan
